Dr. Devlina Chakravarty,
Managing Director

“We are pleased to announce the financial performance of Q3 FY24; one of the best-ever quarterly results despite it being a seasonally weak festive quarter. The optimization of our second tower has enabled us to maintain focus on enhancing financial and operational metrics. The construction of our third tower remains on track and is poised to contribute significantly to our efficiencies post commencement of its operations in early FY25. This will be further boosted by the hospitals under Daffodils and Artemis Lite brands reaching maturity.

During the quarter, we focused on refining the payer mix and improving financial parameters, resulting in one of the highest-ever ARPOB in the industry. Our operational metrics including revenue share from international patients, ALOS and patient footfall affirm our role and recognition as a prominent centre for Medical Value Travel.

Our joint venture entity, Artemis Cardiac Care, expects to improve its profitability, with a majority of its centres reaching break-even. In consolidation with our own brands, this entity will contribute to Artemis’ group value. As we move forward, we plan to sustain this growth trajectory with innovative strategies, exploring both organic and inorganic growth opportunities, and integrating cutting-edge modern technologies; with commitment to remain focused on serving our patients.”
